This invitation is intended for those who are not now our patrons, but is mailed also to some of our regular customers who may have already received **Burpee's Annual for 1918**, with a request to "pass it along" to a neighbor or friend who would be interested in Burpee-Quality Seeds.

Build Your Garden on A Firm Foundation

"As Ye Sow, so Shall Ye Reap"

You may know the disappointment of a failure in your garden. There is no place where so much effort may be expended in preparation and cultivation as in the garden of the enthusiast. There is no place where such intense disappointment may result from the use of poor seeds.

Satisfactory Crops are the Result of "Quality Seeds"

There is as much in the breeding of seed as in the breeding of animals. Forty years of careful scientific experimenting and investigation have given the House of Burpee a thorough knowledge as to what constitutes seeds of real quality. If you want to be safe and sure, get Burpee's Annual for 1918—

The Catalog Pictured Below

The Vegetables Illustrated to the Left Present a Very Important Fact

Burpee's Quality Seeds are the result of many years of continuous effort toward the development of the best possible in every variety. No expense or effort has been spared to create for the Burpee customers a service that is unsurpassed. We have been conducting each year at Fordhook Farms a series of trials that have numbered more than twenty-two thousand annually. Careful comparisons have been made as to the desirability and adaptability of new and old varieties. The seeds offered by the House of Burpee are those which have proved themselves worthy of the high standard that is necessary to obtain the distinguishing mark.

"Seeds of Burpee Quality"

The result of all of this experience is written into Burpee's Annual for 1918.

The Bean That Made Bush Limas Famous

Burpee's Sweet Peas

The House of Burpee has long been famous throughout the world as American Headquarters for Sweet Peas. Such wonderful and well-known varieties as Fiery Cross, King White, Illuminator, Floradale Fairy and Cherub are representative of the many sterling novelties of the Spencer type that we have introduced in recent years.

We are now introducing a new race of Early Flowering or Long Season Sweet Peas that have every indication of giving us all the more colors of the Standard Spencers. Several of these splendid new Sweet Peas are illustrated in color on page 129, and described on pages 126, 127 and 128 of Burpee's Annual for 1918.

The Collections offered below are the finest of the Standard Spencers.
